Visoka škola strukovnih studija za informacione i
komunikacione tehnologije

Funkcionalnosti

Admin panel

Na admin panelu postoji mogućnost potpunog CRUD-a korisnika i proizvoda, kao i prikaz poruka koje su ulogovani korisnici upisali u kontakt formu. Poruka se šalje administratoru na mejl. U bazi se prati svaka promena korisnika ili proizvoda i uzima se trenutni datum i vreme unosa ili update-a. Dok se kod delete-a, menja status u 0, ako je on obrisani neće se prikazivati u svim delovima sajta. Postoje posebni requestovi za svaki insert i update. Na strani logs nalaze se zabeleženi logovi.

```
Route::resource("/users","Admin\UserController");  
Route::resource("/messages","Admin\MessageController");  
Route::resource("/products","Admin\ProductController");
```

Contact strana

Ulogovani korisnik može poslati adminu poruku i ona mu se izlistava u formi tabele. Korisnici koji nisu ulogovani, nemaju pristup ovoj stranici.

Shop strana

Na ovoj strani su izlistani proizvodi iz baze uz pomoć komponente, u kojoj se učitava upit. Postoji paginacija kao i search. Oni rade uskladjeno sa odabirom kategorije. Ako je korisnik ulogovan pojavljuje se link ADD TO CART. Korpa je realizovana preko ajaxa i local storage-a. Strani cart imaju pristup samo ulogovani korisnici. Klikom na ADD TO CART, proizvod se dodaje u korpu i dodaje se na stranu cart. Postoji mogućnost brisanja cele korpe, kao i brisanje određenog proizvoda. Klikom na checkout, upisuje se u bazu idKorisnika, idProizvoda, quantity.

Registracija i logovanje

Na sajtu postoji registracija i logovanje korisnika. Provera podataka prilikom registracije i logovanja je urađena pomoću Requesta.

Registracija i Logovanje se nalaze u AuthControlleru. Pomoću Middleware

Admin I Korisnik, vrsi se manipulacija sadrzaja,
odnosno sta je dovoljeno da vidi odredjeni korisnik, a
sta ne.
